

# CREATE HEALTHIER SPACES WITH **WELLSTAT AIR LITE**

Smart, simple air quality monitoring for indoor spaces

**WellStat Air Lite** puts powerful indoor air quality monitoring into a small, affordable device built for housing associations and smaller buildings. Easy to install and fully integrated with the WellStat platform, it delivers real-time insights to improve comfort, health, and energy efficiency, helping property teams create healthier, more sustainable living spaces with minimal effort.

## Key Benefits

### Compact & Efficient

Small footprint fits easily in apartments, common areas, and smaller buildings

### Reliable Data

Monitors temperature, humidity, CO<sub>2</sub>, VOCs, and more for actionable insights

### Cost-Effective

Affordable solution without compromising on performance

### Smart Management

Connects to the WellStat cloud for remote monitoring and reporting

### Health & Comfort Focused

Supports better indoor environments for residents and staff

## Health Sensors

### PM1.0

Particulate matter

### PM2.5

Particulate matter

### PM4.0

Particulate matter

### PM10

Particulate matter

### CO<sub>2</sub>

Carbon dioxide

### VOC

Volatile organic compound

### NOx

Nitrogen oxides

### T

Temperature

### RH

Relative humidity
